

Modular Self-Service Checkout Ensures the Ultimate in Self-Service Flexibility

Retail is changing faster than most retailers can react. Staying ahead of ever-changing consumer demands is a key challenge.

The DN Series™ EASY Pro is an all-in-one solution that ensures more efficient consumer transactions. The fully flexible system allows for a customized configuration and features best-in-class components, all within an optimized footprint. Make it yours with a range of options for cash modules, screen sizes and peripherals. Integrated industry-standard EFTs enable the technology to be tailored to your store sub-vertical, with the added benefit of on-site scalability and upgradeability to ensure the solution adapts to future requirements.

More Modular

Leveraging one platform with the addition of different modules ensures easy adaptation to changing demands and forms the basis of the DN Series EASY Family. The DN Series EASY Pro is a compact, all-in-one system that combines industrial-grade reliability with state-of-the-art product design. As a more configurable and versatile solution, it delivers on the needs of today while offering the flexibility to deliver in the future.

More Available

Self-service is mission critical for retailers focused on delivering against consumers' demands. Powered by DN AllConnect Services™ for Retail, we ensure up to 99.8% availability, allowing for true 24/7 operations. Harnessing real-time remote monitoring and remote incident resolution, our service experts significantly increase availability and drive maximum staff efficiency.

More Open

Openness is the best way to minimize integration efforts and simplify ongoing solution management. DN Vynamic™ Self-Service provides an open, flexible and modular software platform that empowers your organization to tailor the solution that's right for you, to optimize the DN Series EASY Pro within your POS environment.

Technical Specifications

BASIC SYSTEM UNIT

- BEETLE CPU platform

CONSUMER INTERACTION

- 15" LCD TFT projective-capacitive touch screen (format 4:3 or 16:9, landscape)
- Integrated audio
- Magnetic swipe card reader
- NFC authentication module
- Additional peripherals for identification on request
- User guidance by RGB indicator lighting
- Proximity sensor
- Basket shelves
- Coupon box

ITEM REGISTRATION

- Bi-optical scanner
- Produce scale
- Handheld scanner

PRINTING FUNCTIONALITY

- Thermal receipt printers
- MF printer
- Coupon printer

TENDER OPTIONS

- 2 tier 'Lite' and 'Advanced' cash options
- Note recycling module
- Coin recycling module
- Compatible with industry-standard payment terminals including signature pad, contactless and NFC authentication
- Alternative payment methods including coupons, vouchers and deposit receipts

SECURITY FEATURES

- 2 or 4 bagging security scale with different heights and design options
- Self-learning weight data base
- EAS functionality available for AM and RF technology

ATTENDANT INTERVENTION

- RGB LED lane light
- Supervisor log-in via e.g. magnetic key, magnetic swipe card reader, NFC authentication as well as other peripherals on request
- Separate stationary or mobile device

ERGONOMIC AND CUSTOMER-FOCUSED DESIGN

- Fulfills ADA requirements
- All metal parts can be color-coded for any customer-specific color scheme
- Security scale and basket shelf variants are available in left or right configuration and can easily be changed on site

Dimensions

Card-only variant
 Height: 1,795 mm
 Width: 1,083 mm
 Depth: 718 mm

2 bagging variant
 Height: 1,795 mm
 Width: 1,266 mm
 Depth: 718 mm

4 bagging variant
 Height: 1,795 mm
 Width: 1,666 mm
 Depth: 718 mm
